Continuing our commitment to fostering the development of future medical professionals, BrizBrain & Spine are currently hosting 5th year medical students from Bond University.

In conjunction with Uniting Care Health, the students join us for a clinical placement of 4 weeks duration, attending lectures and learning activities set by the Hospital, and attending surgeries with our doctors.

This is the third year that we have participated in this joint venture program and we wish all of our students every success in their future endeavours.
